### **Detailed Action**

Receipt is acknowledged of the Response filed 4/19/2007.

The original claims 1-10, 12 and newly added claims 14-32 are pending in this application. Claims 11, 13 have been cancelled.

Claims 8, 10, 12 stand withdrawn from consideration, being drawn to the non-elected subject matter.

### **Claim Rejections – 35 USC 112**

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 14 is rejected under 35 U.S.C. 112, second paragraph, because of a lack of antecedent basis. Claim 14 is written to depend on claim 3. However, it is not clear that claim 14 reads on claim 3, though it clearly reads on claim 4. Applicant is advised to correct the claim language. The Examiner suggests claim 14 should be written to depend on claim 4 or to clarify the description of the cyclohexane A<sup>1</sup> structure in claim 3, so that it clearly reads on the structure depicted in claim 14.

### **Claim Rejections – 35 USC 102**

Art Unit: 1621

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7, 19, 23 are rejected under 35 U.S.C. 102b as being anticipated by Vachy et al. (US 5,487,893). Vachy et al. teaches the following compound, termed "Example 34". Therefore these claims are fully met.

Example 34

### Allowable Claims

Claims 20-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 1-6, 9, 15-18, 24-32 are allowed over the prior art of record.

### **Reason for Allowance**

The instant claims are drawn to chiral phenol derivatives for liquid-crystal displays. The structures of other compounds in the art for liquid-crystal displays are substantially different than the instant claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

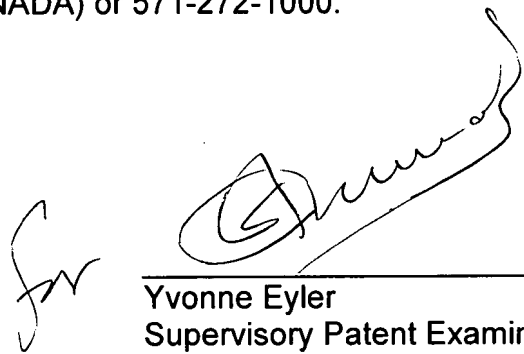

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
